

RESUME BUILDER

INTRODUCTION

- **ResumeBuilder AI is a dynamic web application that streamlines the process of creating professional resumes.**
- **Traditional resume building often involves time-consuming formatting and design challenges – our platform eliminates these hurdles by offering an intuitive, form-based interface.**
- **Users can easily enter their details, preview their resume in real time, and instantly download a polished, ATS-friendly PDF.**
- **The goal is to save time, remove formatting errors, and empower job seekers to make a strong first impression with a clean, professional resume.**

TOPICS COVERED

- Functional Components
- JSX
- Props (Properties)
- useState Hook
- Event Handling
- Conditional Rendering
- Controlled Components
- Hooks Integration

REACT PACKAGES

1. `htmlToPdf` - for downloading resume
2. `React Icons` - make the interface visually appealing.

TOPICS COVERED

1. Functional Components:

Built reusable components like `ResumeForm` and `ResumePreview`

2. JSX:

Wrote HTML-like syntax in JavaScript for UI

3. Props (Properties):

Passed data from parent to child components

4. useState Hook:

Managed all dynamic form data and user inputs

6. React Icons

Used modern icons for better UI/UX

7. Hooks Integration

Used useState and useRef for state and PDF generation

8. GeminiAI integration - integrated Gemini AI to provide intelligent resume suggestions.

OUR LEARNINGS

01

Learned about **Reusability** by creating components that can be used multiple times.

02

Learned how to use **React Routing** to navigate between different pages smoothly.

03

Learned to convert **HTML content to PDF** using htmltopdf package

04

Understood how **React states** work to manage **dynamic data** effectively.

05

Learned to use **React packages** like html2pdf and react-icons to add functionality easily.

06

Learned how to **integrate AI** to enhance resume suggestions and automation.

07

Learned how to manage and display **dynamic data** efficiently to make the project more functional.

AI Powered Build Your resume ATS Optimized

Craft your Best Resume in Minutes with AI

Craft a professional resume with AI guidance and our ATS-friendly templates. Get real-time suggestions as you build to help your resume stand out.

Build an ATS-Ready Resume → View Templates

The screenshot shows a laptop screen displaying a resume template for 'G. G. Girif Branirthulr'. The template includes sections for 'About', 'Experience', 'Skills', and 'Education'. A prominent callout box on the right side of the screen displays 'ATS Score: 95%' with a checkmark icon. The laptop is placed on a desk with a cup of coffee and some papers. A small button at the bottom left of the laptop screen says 'AI Optimized' with a star icon.

First Last

Entry-Level IT Support Specialist

Entry-Level IT Support Specialist with eleven years of experience in maintaining computer systems, giving technical assistance to clients, and training clients on how to use newly installed applications. Worked in teams of 12 to 16 team members.

WORK EXPERIENCE

Entry-Level IT Support Specialist November 2015 - Present

Resume Worded, New York, NY

- Organised and presented training for over 300 employees located across three different offices to facilitate software migrations and the deployment schedule.
- Designed and updated 30+ easy-to-understand training materials to support the company-wide rollout of system updates.
- Procured and installed 100 new computers and software applications for a Windows upgrade. Educated new users on Windows applications and the Office 360 suite.
- Reviewed, suggested, and implemented database management solutions to increase repository storage needs by 50% to meet the growing needs of the business.

IT Technician June 2013 - October 2015

Growthsi, San Francisco, CA

- Developed and upgraded software and hardware inventory as required, and provided desktop support to 25 end users using TeamViewer.
- Supported website operations, assisted with the layout and design, and updated information for 150+ products and events.
- Set up and conducted monthly staff meetings to discuss website updates, this resulted in better data-driven decision making and faster results, which improved the site performance and accessibility of information by 35%.
- Set up wireless internet connectivity on eight hot desk workstations, as well as the wireless network access point.

IT Support (Intern) August 2010 - January 2013

Resume Worded's Exciting Company, New York, NY

- Provided low to mid-level administrative support to the Head of IT and a team of 15 IT technicians.
- Designed five technical manuals on topics such as how to operate video and projector equipment; and how to use Google Chromecast and TeamViewer.
- Engaged and negotiated with 15 vendors to reduce the company's spending on IT services and equipment by \$30,000.00 based on the previous year's audit results.
- Introduced Microsoft SharePoint technologies to manage the company's 250-application portfolio.
- Performed hardware troubleshooting for 35+ computers, printers, and scanners, managed the ink and toner inventory system and ordered miscellaneous office supplies as required.
